

Housing Hub is a website and an online community of people with disability, their supporters and providers working together to create accessible housing options. We operate an NDIS Housing Advice Line which is available Monday to Friday, 10:00am-3:00pm AEDT and we also schedule regular free online webinars.

The NDIS Housing Advice Line provides free, current and correct information for people with disability, their families and their professional supports seeking answers to those difficult questions.
