

Become a Volunteer Handyman for our Kai'Mia Community Garden

Our Community Garden is a small, welcoming space that needs an extra pair of hands!

Tuesdays, 9:30-11:30am
(or as needed)

Tasks may include lifting and moving pots, helping with general garden maintenance, and assisting with small practical jobs around the garden.

You may also help build plant supports for climbing plants and keep the garden tidy and productive. Other tasks include pruning small fruit trees and herbs.

Some knowledge of plants and basic pest control would be helpful.

There will usually be more jobs to do during the summer months.

Each week, we share what we harvest with everyone who is there on the day.
