

Build your business

With our fee-free* online program

Upskilling women in business

Women in Business is a NSW Government and TAFE NSW fee-free* online program for women looking to establish a business, or who are already operating a business.

How it works

Women in Business is a flexible program rather than a traditional TAFE NSW course, meaning you can choose exactly what you want to learn. The program provides you access to resources, and you can mix and match topics to build an online program tailored to your needs.

There are:

- No classes to attend
- No start/finish times
- No timetables, as it is self-paced learning

We launch new topics each month and host a live monthly webinar, for which you'll receive an invitation to (unless you opted out of receiving marketing). We also record the webinars for participants to view at their convenience.

Who you will learn from

Hear from leading female entrepreneurs and subject matter experts as they share their knowledge and experiences to help you set up and grow your business.
