Experience the Comfort of Home with Euphoria

Private Support at Home offers personalised care delivered in the comfort and familiarity of your own home.

Access our full range of services immediately with no waiting lists, government funding approvals, or ACAT assessments required. All services are privately funded and tailored to your individual needs, giving you greater flexibility, choice, and control over the support you receive.

Whether you need care straight away or would like access to additional services beyond government-funded options, Euphoria provides responsive, flexible solutions designed around you.

Why Choose Private Support at Home?

Private Support at Home gives you immediate access to personalised care when you need it most. Many people choose a private services support while waiting for a government-funded Home Care Package, after returning home from hospital, or during periods where their care needs are changing.

It also provides greater flexibility and access to additional services without the delays or limitations often associated with funded care programs.

At Euphoria, we take the time to understand your individual circumstances and help you explore the best care options for your lifestyle, goals, and support needs.

Key features:

- ✓ Personal care
- ✓ Home Cleaning
- ✓ Transport
- ✓ Meal Preparation
- ✓ Nursing Care
- ✓ Respite
- ✓ Social Support
